

## **MAINTENANCE TECHNICIAN –NIGHT SHIFT**

### **JOB DESCRIPTION:**

The maintenance technician position is responsible for performing highly diversified duties to install, troubleshoot, repair and maintain production and facility equipment according to safety, predictive and productive maintenance systems and processes to support the achievement of the site's business goals and objectives. This position plays a key role in the smooth performance and workings of the Night Shift.

All members of the Co-operative Plating team are expected to work effectively with each other as well as customers and vendors. Behaviors such as maintaining a positive attitude and courteous demeanor to create a respectful, professional work environment are essential.

### **WORK ENVIRONMENT:**

While performing the duties of this job, the employee is frequently exposed to fumes or airborne particles, moving mechanical parts/material handling equipment, heat, and vibration. There may be occasions when it's necessary to work on powered equipment without the benefit of lock out/tag out. Otherwise, lock out/tag out procedures must be followed. The noise level in the work environment and job sites can be loud. Appropriate personal safety gear is provided and should be worn at all times.

### **POSITION TYPE/EXPECTED HOURS:**

This is a full-time Maintenance technician position and requires membership in the IAM union, district lodge 77.

### **ESSENTIAL FUNCTIONS:**

- Provide emergency/unscheduled repairs of production equipment during production and performs preventative scheduled maintenance on process equipment and facilities.
- Perform tasks including, but not limited to, mechanical, electrical, pneumatic, hydraulic, troubleshooting and repair of production machines
- Read and interpret equipment manuals, work orders, and blueprints to perform required maintenance, service
- Diagnose problems, replace or repair parts, test and make adjustments
- Perform a variety of plumbing, mechanical, and metal fabrication/machining tasks
- Use a variety of hand and power tools, electrical meters and material handling/lift equipment while performing duties
- Detect faulty operations, defective material and report those and any unusual situations to plant supervision
- Calculate process solution additions and corrections
- Comply with safety/environmental regulations and maintain clean, orderly work areas

Other duties or a change in duties may be assigned by direct Managers

## **REQUIRED SKILLS:**

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job

- While performing the duties of this job, the employee is regularly required to talk and hear. This position is very active and requires standing, walking, bending, kneeling, stooping, crouching, crawling, and climbing all day. The employee must frequently lift and/or move items over 75 pounds ( with assistance ). Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus.
- Technical capacity, mechanical aptitude, troubleshooting skills
- Results driven
- High Initiative / self-starter
- Ethical / team player

## **REQUIRED EXPERIENCE:**

- 2+ years of manufacturing experience; strong hydraulic, pneumatic, mechanical and industrial skills with some PLC experience and HVAC
- Ability to successfully pass background and mechanical aptitude check

## **REQUIRED EDUCATION:**

- High school diploma and/or GED, vocational tech curriculum preferred
- Completion of a craft apprenticeship, or an equivalent number of years of education and production maintenance experience
